Principal's Update

One of the highlights of this term is seeing Year 9 students start their Duke of Edinburgh journey with their bronze expeditions. The Duke of Edinburgh programme has grown significantly over the past few years and the students that went on expedition last week were a real credit to the school and I know the second group are looking forward to going next weekend! Thank you as always to the dedicated team of staff that run the programme led by Mr Liley and to parents for their support of the programme.

Eliza and Natalia participated in the OAT National Spelling Bee Final at Gonville and Caius College in Cambridge this week. As part of the event, they enjoyed a tour of the college and an inspiring presentation by the Director of Languages on the value of learning a foreign language. Following very impressive performances, Eliza and Natalia came runners-up. This remarkable achievement serves as a testament to their dedication to learning and their linguistic aptitude. They were excellent ambassadors for our Academy. Thank you to all students, parents and staff who have supported the competition.

Finally, a huge thanks to Bethany, Poppy, Jasmine, Amelia, Ruby and Poppy for volunteering to umpire at our cluster primary school netball tournament!

Have a lovely weekend.

OPEN TO BOYS AND GIRLS!

26th April 2024

In keeping with our commitment to provide students with outstanding careers guidance and tailored support when choosing their next steps after school, Broadland will shortly be using Unifrog, an award-winning, online destinations platform. All students in all Years will have access to this website by the end of the academic year.

We will begin with Year 10 students to enable them to add work experience placements - we will send Y10 students and their parents further information about how to do this next week.

Students access the platform by clicking a link in their welcome email, which will also be sent to their school email address next week. They will then be able to create a password and can begin using the platform.

They will sign in to Unifrog using their academy email address and password and they can do so from any computer, tablet, or smartphone. We would encourage you to use the platform with your child so you can support them through the process of deciding their next step.

Unifrog is the universal destinations platform and is designed to support learners in making the most informed decisions about their futures and has a range of tools that are suitable for all year groups. Each student has their own account where they can explore all the career and next step options available to them and find information on everything from managing their workload to writing a winning CV. Students have access to a wide variety of video and written content, and interactive quizzes and tests, including:
